Education

University of Central Florida

Graduated: 05/2025

B.S. Computer Science; 3.6 GPA

- *Highlighted coursework:* Algorithms in Machine Learning, Systems Software, Robot Vision
- *Extracurriculars:* The National Society of Leadership and Success Club Member since Spring 2023, Girls Who Code Club Member since Fall 2023

Valencia College

Graduated: 07/2021

A.A. Health Sciences; 3.8 GPA

- *Recognitions:* President's/Dean's list all semesters, Phi Theta Kappa Honor Society Club Member since 2021

Work Experience

Freelance Software Developer: Remote

05/2024 - present

- Designed and deployed websites using DigitalOcean hosting
- Implemented responsive web design for cross-device compatibility with interactive UI components
- Conducted independent research to learn and apply emerging web frameworks and deployment strategies

Transcriptionist/Medical Assistant: AAIC of Central FL

01/2020 – present

- Obtained patient history, took vitals, sent e-prescriptions/wrote prescriptions
- Transcribed/processed confidential patient files into electronic medical records
- Assisted doctor in the room with patients

Skills

Programming: Python, Java, C, C#, C++, JavaScript, TypeScript, HTML/CSS, SQL, React, Flutter

Tools: PuTTY, Postman, SwaggerHub, PowerShell/Command Line (CLI), Jira

Troubleshooting: Debugging software/hardware integrations, debugging system errors

Other: Proficient in Linux and bash scripting, effective communication, diligent, problem-solver

Projects

Social Sense Mobile App

- Built a mobile app with Firestore to manage user data and Firebase for authentication
- Developed an OpenAI-based conversational AI for role-playing social interactions
- Integrated AWS facial recognition to help users practice expressing emotions

Arduino and Breadboard

- Designed a system for embedded software development, measuring temperature and humidity using DHT sensors with real-time data display
- Diagnosed and resolved a connectivity issue preventing sensor readings from displaying

Compiler Development

- Gained experience writing compilers in C and assembly languages
- Implemented a type-checking module and developed a parser-generator for a compiler project using Bison in C language
